

JOIN THE REGATTA AND SUPPORT THE LEUKEMIA & LYMPHOMA SOCIETY. POWER BOATERS CAN DO THIS BY PARTICIPATING IN A **PREDICTED-LOG CONTEST.**

This is not a test of speed – it's a test of skill. It's a sure way to practice navigation, expand your knowledge of the local cruising waters and support a terrific charity, all while meeting new friends and having fun.

We're happy to announce the inclusion of a Power Boat competition at this year's Volvo Leukemia Cup fundraiser. We're looking for participants who enjoy boating and want to help support this charity. Predicted-log contests (a.k.a. racing) are a great time for everyone - novices and experts - skippers and passengers alike!

What is a predicted-log contest? Essentially, the objective is to predict the amount of time it will take to travel the distance of a preset course. This sport tests your knowledge of your boat's performance characteristics as well as your ability to navigate. Each contestant tries to account for tides, currents, weather and anything else that may affect boat speed. More than one person can compete on the same boat, so bring along friends to enjoy the day.

Beginners are encouraged to participate. They will run a modified course, and will be given all necessary information as well as any necessary instruction. If you have a boat that can run 6-15 knots, a tachometer, a compass and a chart, you can do it! A working 'head' is nice as the race will be about two hours long.

Raising funds for the Society is the key objective of the regatta. All registration fees go to fight leukemia and lymphoma. Many participants raise additional funds. Obtaining sponsors for their boat, finding auction items to be donated, and selling ads are some of the means used to support the organization. Prizes are awarded to individuals obtaining the most donations.

Get more predicted logging information at <http://members.aol.com/NarrCruise/> the *Narragansett Cruiser Association's (NCA)* web site, or the national organization's web site at <http://www.predictedlog.org/>

The NCA contacts for the Leukemia Cup are **Chris Yalanis (401-846-6496)** christopher.p.yalanis@smithbarney.com and **Bill Stephens (401-254-4297)** wmdstephen@aol.com.

Give us a call if you'd like further information on how to participate or to find out about a free training class.

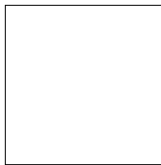

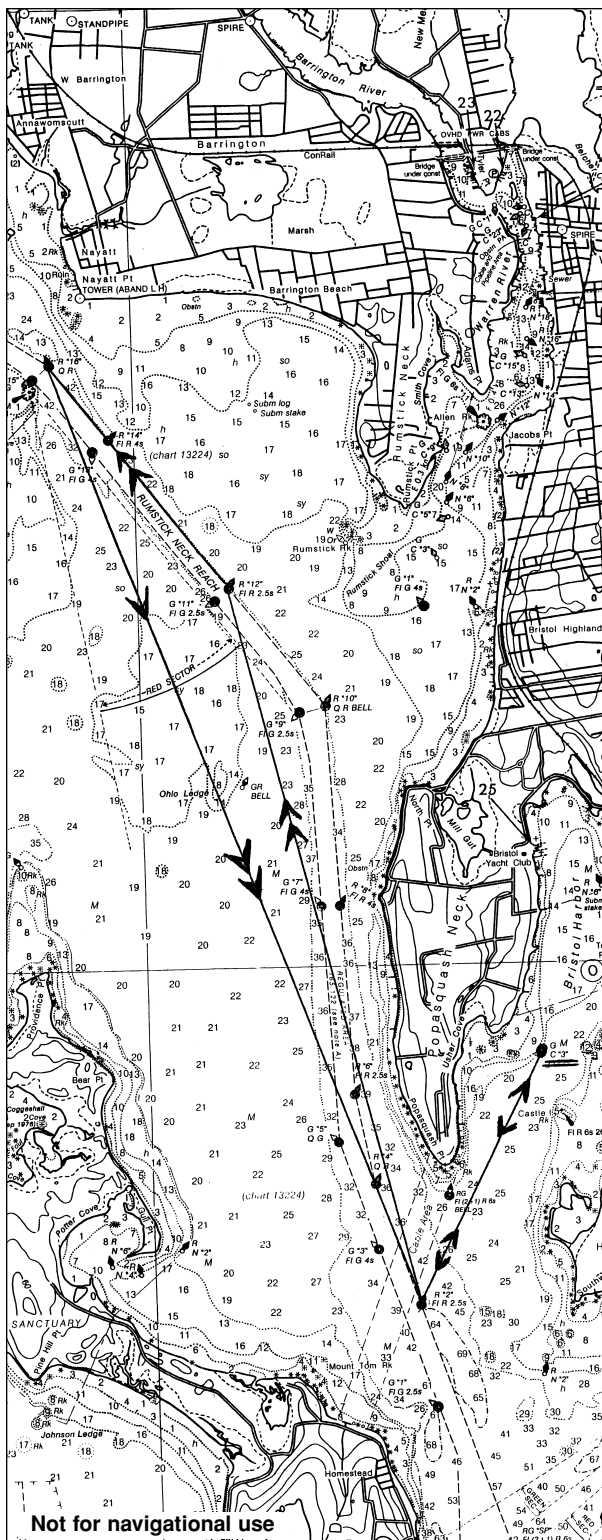

The NCA is pleased to assist with this year's race and fundraiser. Please join us in support of this terrific cause, and bring as many friends and spectators as you wish.

YES! I want to participate in the VOLVO Leukemia Cup Regatta on August 16, 2003!

Skipper's Name	Address	City	State	Zip	Boat Description
Phone (w)		(h)			email
Boat Name					
\$10 per predicted-log entry. Join the Herreshoff Marine Museum as a family member for only \$50. One of the benefits is that for every visit to the museum you will receive first night's free mooring or dock space (as available) and discounted rates for any additional nights. Join the museum today to receive complimentary mooring or dock space for the regatta!					
Dinners: Lobsterboil (Fri., 8/15 @ \$45/person) # tickets _____ or BBQ (Sat., 8/16 @ \$15/person) # tickets _____					
I would like to sponsor The Volvo Leukemia Cup Regatta at the following level:					
Starboard (\$1000) _____ Windward (\$500) _____ Cruiser (\$250) _____ Patron \$100 _____					
Total Due: \$ _____ Check enclosed for \$ _____ (make checks payable to LLS) exp. _____					
Credit Card # (VISA/MC/AMEX) _____					
Name on card _____ Signature _____
